

International Seminar on Noise, Vibration & Harshness

International Centre for Automotive Technology (ICAT) is organising the fifth edition of the biennial seminar-cum-workshop on Noise, Vibration & Harshness – “iNVH-2019”, a series of events which was started by ICAT in 2011 to provide a platform to professionals, related directly or indirectly to the industry, for exchanging knowledge and experience on the subject.

Since 2011, the event has been attended by over 450 delegates from more than 60 different organisations. In 2019, this event will be attended by approximately 300 professionals from industry.

The participants shall include experts from the automotive industry, component manufacturers, Tier-II and Tier-III suppliers, rule makers, test houses, associations, scholars on the subject, academia, etc.

These professionals would share their experiences and discuss the issues faced by them over the course of their association with the subject and the solutions to such issues.

This two days seminar-cum-workshop will encompass various topics critical to Automotive NVH and will also shed light on the future of this technology in India.

The unique format of this event will give the attendees a mix of keynote presentations, technical papers, panel discussion, case study and business networking opportunities to provide a more interactive experience with leading experts in this field and hear them express their views on future trends within the industry.

VENUE:
ICAT, Manesar

DATE:
23rd–24th May, 2019

TOPICS TO DISCUSS

- ✓ Vehicle NVH level issues.
- ✓ Tyre Noise & Tyre Design.
- ✓ Engine and Powertrain NVH Issues.
- ✓ Sound Quality in Components.
- ✓ Basics of NVH Instrumentation.
- ✓ Buzz, Squeak and Rattle.
- ✓ Acoustic Materials and their offset on vehicle NVH Performance.

MAJOR FEATURES

- ✓ More than 10 Technical Paper Presentations including detailed case studies shared by experts from the industry.
- ✓ 5 Keynote Presentations & Industry Perspectives.
- ✓ Panel Discussions.
- ✓ Exposition.
- ✓ Business Lounges for Networking.
- ✓ Cultural Evening & Dinner.

BENEFITS OF ATTENDING

- ✓ Gaining insight into the subject.
- ✓ Demonstration of Automotive NVH design trends & directions.
- ✓ Practical case studies & problem solving strategies.
- ✓ Interaction with over 300 industry experts & OEM's from India & abroad.
- ✓ Understanding associated NVH Testing Regulations.

WHO SHOULD ATTEND

- ✓ R&D departments of OEM's.
- ✓ NVH solution & equipment providers.
- ✓ Acoustic Material & Instrumentation suppliers.
- ✓ Academia.
- ✓ Testing & Certification Agencies.
- ✓ Government Bodies.
- ✓ Students.
- ✓ Component Manufacturers.

HOW TO GET ASSOCIATED WITH INVH-2019?

- ✓ Exhibitor.
- ✓ Technical Presentations.
- ✓ Advertise with us.
- ✓ Sponsorship.
- ✓ Attend as a delegate.
